

STATISTICAL INSIGHT

- 1973 forward
- 2,500 content sources
- Full-text PDFs upgrade of A&I
- 1M+ high-research value Excel tables, hand selected by our expert editors, unlocked from PDFs
- 100,000 reports

Two subscription options:

1. Complete Edition (100% of the Excel tables, 100% of the reports, and 100% of the metadata)
2. Tables Edition (Makes up 10% of the Complete Edition. 100% of the tables, 10% of the reports, and 10% of the metadata are from the Complete Edition)

STATISTICAL ABSTRACTS OF THE WORLD

- 2013 forward
- Compendia from nearly 50 countries, plus more being added
- International compendia from the United Nations, World Bank, and European Union
- Search all collections individually or concurrently
- Line-item access to tables
- Table-specific narrowing of results by source, data date, subject, type of data

STATISTICAL ABSTRACT OF THE UNITED STATES

- 2013 forward
- Online access to 1,400 tables per year
- Updated monthly
- Line item access
- Print edition also available

Add-on module to Statistical Insight or stand-alone

HISTORICAL STATISTICAL ABSTRACTS

First release in fall of 2014: Abstracts from 1970-2012

- Full-text PDFs of each section
- Excel version of each table for all years
- 1929-1969 content released fall 2015
- 1878-1928 content released fall 2016

Only available with subscription to Statistical Abstract of the United States

INTERNATIONAL DATASETS

- Fully interactive product enables visualization of 12 different chart types
- Sub-national data for over 40 countries:
 - Compare countries
 - Export and share visualizations
 - Merge datasets
 - Upload data
- Economic forecast data from Oxford Economics and the Economist Intelligence Unit
- Trade data for 47 countries
- Data from over 30 national statistical offices

STATISTICAL COLLECTIONS

COMPREHENSIVE COVERAGE OF BUSINESS AND SOCIAL SCIENCES DATA

The ability to analyze and interpret numeric data is critical to a student's success and future success in business, government, or academia.

Quantitative reasoning is vital to functioning in our data-drenched society—and it's becoming required at a growing number of institutions. Students are expected to reason quantitatively and to use formal systems to solve problems of quantitative relationships involving numbers, symbols, patterns, data, and graphs.

In addition, librarians have told us that the demand for international data at their institutions has increased dramatically in recent years. Often those demands go beyond the scope of the data collected and maintained by the World Bank and other international organizations. A student might need socioeconomic data for a foreign city or sub-national area; a professor might need long-term trends in the health behavior or consumer spending in a particular country.

ProQuest Statistical Collections support quantitative reasoning with comprehensive, direct access to relevant, current, and authoritative statistics worldwide that are not readily available via the open Web or other portals.

STATISTICAL INSIGHT

Fast, easy, and effective way to find the statistics you need

Take researchers directly to the data they need—whether it is broad perspectives on long-term national trends and implications or a specific need.

Whether users are looking for tables, statistical reports, publication abstracts, or datasets, ProQuest has turbo-charged Statistical Insight with the same great functionality that we developed for the Statistical Abstract of the U.S. and the Statistical Abstracts of the World to provide a more seamless and satisfying research experience.

- Access relevant, reliable content quickly
- Instantly preview spreadsheets and mouse-over tables
- Navigate and pinpoint data more precisely
- Empower your researchers to filter, narrow and search within results

STATISTICAL ABSTRACTS OF THE WORLD

Aggregated statistical abstracts of nearly 50 countries are available through a single-search interface. These statistical abstracts are generally issued by the national statistical offices of foreign governments and contain data not easily found elsewhere. Global and regional statistical compendia issued by international organizations and research firms are also included.

STATISTICAL ABSTRACT OF THE UNITED STATES

A highly curated collection of hand-crafted tables highlighting almost every aspect of life in the United States. The Statistical Abstract of the U.S. was published from 1878 to 2012 by the U.S. Federal Government. In 2013, ProQuest assumed the responsibility of updating and maintaining this much treasured document. And we went one step further: we turned it into a database that allows both search and browse.

HISTORICAL STATISTICAL ABSTRACTS OF THE UNITED STATES*

The Statistical Abstract of the U.S. was published from 1878 to 2012 by the U.S. Federal Government. ProQuest is unlocking all 132 years of PDF-based tables and making them available as Excel spreadsheets. Users can access Historical Statistical Abstracts through our award-winning Statistical Abstract interface, with the ability to both browse and search each individual edition separately.

**Only available with subscription to Statistical Abstracts of the United States*

INTERNATIONAL DATASETS

A fully interactive data and visualization product that allows users to create charts, merge datasets, and upload their own data. International Datasets provides users with economic and social statistics for every country in the world and sub-national data for over 40 countries. This collection has grown extensively since its launch. It now includes trade data for 47 countries and data from over 30 countries' national statistical offices.

This product is a must-have for International Studies programs, and courses in Economics, Public Policy, Business, and Social Science.

"Statistical Insight is the most broadly based, general purpose numerical database on the market..."

—Suzanne Bell, *Librarians Guide to Online Searching*, June 2012

STATISTICAL ABSTRACT OF THE UNITED STATES:

"The publisher has changed, but the content and features that made the Abstract such an indispensable and reliable part of reference collections remain intact. Readers in all libraries will continue to find this title to be an essential and convenient resource for addressing their statistical research needs."

—Rob Tench, Perry Library, Old Dominion University, *Library Journal*, May 1, 2013

"ProQuest has made us happy by not allowing this trusted resource to cease publication! Not just that, it has made some key improvements to the web based version of this iconic reference source by updating data more frequently, adding interesting tables, indexing the content, and making it searchable."

—Patricia Berens, Online Searcher, *Information Today*, May/June 2013

"The careful presentation of this work is a joy to behold."

—Henrietta Thornton-Verma, *Library Journal*, Feb. 18, 2013

>>CHOICE AWARD WINNER, OUTSTANDING ACADEMIC TITLE OF 2013

>>2014 SIIA CODIE CONTENT AWARD FOR BEST GENERAL REFERENCE SERVICE
