GLOBAL VISIBILITY OF BREAKTHROUGH GRADUATE RESEARCH

**START
HERE**

Since 1938, ProQuest has acted as a trusted steward in archiving, preserving, publishing, and disseminating dissertations and theses for thousands of leading institutions worldwide. We are committed to supporting authors by providing broad access to this vital work that builds reputations, extends impact, and advances research.

EXPAND THE GLOBAL REACH AND IMPACT OF YOUR WORK

Dissertations and theses submitted to ProQuest are made available in ProQuest Dissertations & Theses (PQDT®-FT), the world's most comprehensive archive of dissertations and theses. Your work will stand together with more than three million dissertations and theses from leading institutions worldwide. And, since PQDT-FT is accessed by more than 3,000 institutions around the globe to conduct 200 million searches each year, you'll maximize the reach and impact of your research while helping to build your profile and standing in your field.

- **Your works are made available to a wide audience beyond the academic community.** Customized annual and biannual searches conducted for critical entities interested in the latest graduate student research. These entities include special collections in academic libraries, cultural and historical societies, national and international public libraries and museums, faculty, state, local and federal governmental agencies, and private sector organizations).

- **For students in the social sciences**—the range of our customer base for PQDT includes social service agencies, foundations and hospitals, etc.
- **For students in the Arts**—the range of our customer base for PQDT includes major national and international museums, specialized museums (music), foundations, etc.

- **Support is available** through a team of dedicated author and school relations service specialists.

QUICK AND EASY DIGITAL SUBMISSION

ProQuest's digital submission system, ETD Administrator, is a simplified process that eliminates the need to box and ship paper copies of each dissertation or thesis. Our customized workflow tool can be used to submit your graduate work at no cost once arranged with your institution. Additional information is available at <http://etdadmin.com>.

MAXIMIZED DISSEMINATION WITH RESPECT TO AUTHOR DECISIONS

- ProQuest partners with the Council of Graduate Schools to recognize groundbreaking graduate works.
- ProQuest publishing is non-exclusive. Authors retain their copyright and they can also receive a royalty based upon sales of their work. Mandatory deposit requirements are met on behalf of the author.
- Authors can choose broad dissemination (Open Access PLUS) or embargoes.

DISSEMINATION

ProQuest submits your work for inclusion in leading subject and discipline indexes, such as MLA, MathSciNet, SciFinder, Sociological Abstracts, ERIC, Institute of Physics (IOP), PsycINFO, etc. enhancing the visibility of your work.

ProQuest offers:

- A **non-exclusive** publishing agreement, with **authors retaining complete control** over their copyright.
- Flexible and reliable ways to restrict access to your work consistent with your professional needs (patents, confidentiality, tenure-track output).

RECOGNITION

- Publishing your dissertation or thesis with ProQuest provides you with a legitimate citation for your curriculum vitae and an ISBN, making it easy for other scholars to refer to and cite your work.
- Authors are eligible for a royalty based upon sales in all formats—digital, print and microform.
- ProQuest has been recognized as an official digital repository by the Library of Congress, so your research follows in the footsteps of millions of other authors entering the scholarly record.
