# ProQuest Rialto

COMING SOON!

## Selection to Acquisition Unified

ProQuest Rialto, built on Alma, the Ex Libris higher education cloud platform, is the next-generation, user-friendly solution for unifying and streamlining selection and acquisition workflows in academic libraries.

ProQuest designed Rialto as a collaborative project with Ex Libris and leading universities from around the world. ProQuest Rialto targets the long-standing, unresolved pain points in the selection and acquisition processes of academic libraries. These pain points include duplicative and manual work due to multiple systems, siloed workflows for print, electronic, and digital resources, and lack of analytics to make decisions based on outcomes, not only metadata.

Rialto is a one-stop marketplace for academic content – both non-ProQuest and ProQuest – as well as for library analytics to support informed decisions. ProQuest Rialto creates a seamless, unified end-to-end library workflow, improving library staff productivity and responsiveness. With user-centered design, real-time integration of resource availability, funds and budget information and the library's resource-usage data, librarians can streamline service to patrons while developing a more refined analysis of library effectiveness, performance and collection lifecycles.

ProQuest Rialto is the future of optimizing selection and acquisition – helping academic libraries buy what they need and use what they buy. Implementations have begun!

To learn more, visit [go.proquest.com/pqrialto](https://go.proquest.com/pqrialto).

The screenshot displays the ProQuest Rialto user interface. At the top, there's a navigation bar with 'Market', 'Keywords', and a search bar. Below this, a welcome message for 'Susan Doe' is shown along with the date 'Wednesday, March 13, 2019'. The main content area features a large book recommendation for 'FACTFULNESS' by Hans Rosling, highlighting it as a '#1 Best Seller' in Probability & Statistics. To the left, a sidebar lists various categories like 'Mathematics', 'General feed', 'Economics', 'Statistics', and 'Research', each with a count of new titles added since the last visit. The central part of the dashboard includes a 'Funds Balance' section with two circular progress indicators showing 69% and 70% usage for Fund X FY 2019 and Fund Y FY 2019 respectively. Below this, there are three colored boxes showing loan growth: 25% (blue), 47% (green), and 1.5% (orange). On the right, a 'Top trends' section lists more book recommendations like 'SECRETS OF MENTAL MATH' and 'Infinite Powers'. The bottom right corner shows a small chat window with the text 'Hi, I'm a chatbot'.

# ProQuest One Literature

NEW!

Literary research, teaching and learning are evolving in exciting ways. Scholars are stepping beyond the Western canon to elevate and analyze diverse and lesser-known voices. Faculty are tapping multiple formats — like audio and video — to create immersive experiences for their students.

Developed in collaboration with faculty, scholars and librarians, ProQuest One Literature is now *the* destination for all aspects of literature research, teaching and learning.

A comprehensive literature resource with a discipline-specific user experience offers scholars and students a path to understand and interpret authors, movements and diverse points of view.

ProQuest One Literature offers the literature community:

- Diverse and Rich Content
- Multi-Format Resources
- Discipline-Specific Approach
- Ever-Growing Resources
- Community-Centric Collaboration

## Diverse and Rich Content

Over 500,000 primary texts by authors from more than 65 nations, drawn from sources such as the ProQuest Black Writing Collection and World Literature Collection, serve the growing numbers of scholars and students who seek global, diverse representation alongside the traditional Western Literature canon. ProQuest One Literature spans poetry, prose and drama from the eighth century to today.

## Multi-Format Resources

A wealth of multi-format resources help researchers and students gain a deeper understanding of literature. ProQuest One Literature users have access to more than 3 million literary citations, 14,000 dissertations, 20,000 ebooks, 1,300 videos and 1,200 full-text journals — so they can fully explore and experience the breadth of content related to their literary research pursuit.

## Discipline-Specific Approach

An unprecedented, discipline-specific approach for literary studies makes researching more comprehensive, relevant and productive for faculty, graduate students and undergraduate students. Author, work and movement pages serve as one-stop entry points for information related to an author, work or movement, and a literature-specific index brings disparate formats and literary content together in a way never done before.

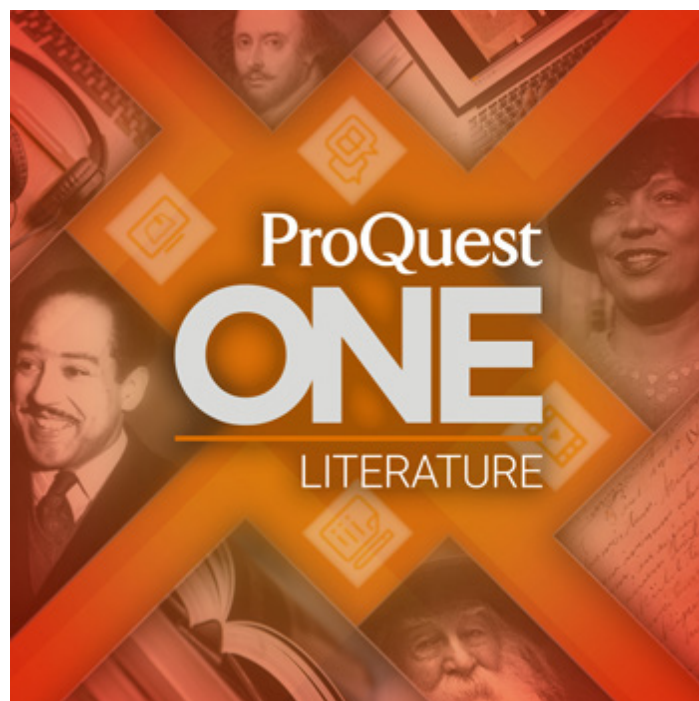

## Ever-Growing

Content will continue to grow to support the needs of literary students, teachers and scholars.

## Community-Centric Collaboration

Collaboration with library and faculty advisory groups makes ProQuest One Literature a resource of the community for the community.

To learn more or request a trial, visit [proquest.com/go/pq1literature](https://proquest.com/go/pq1literature).

# Introducing ProQuest TDM Studio

COMING SOON!

## A Text and Data Mining Solution for Research and Learning

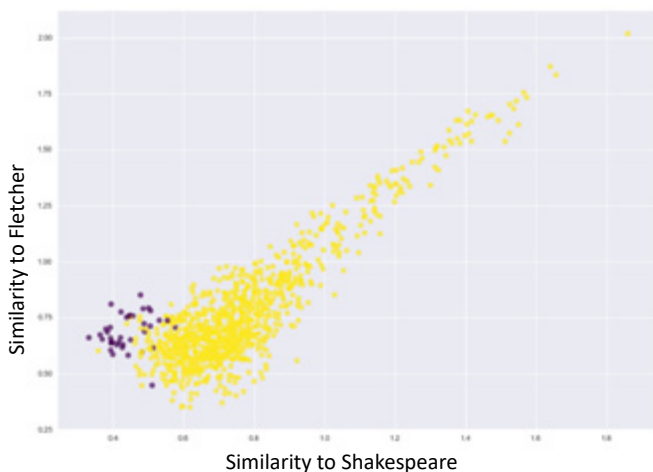

*Answer new questions, challenge old answers and elevate research to the next level at your institution.*

From healthcare to business to social sciences to humanities, text and data mining (TDM) is becoming crucial to research in nearly every discipline. But when exploring TDM projects, do your researchers:

- Struggle to identify and gather disparate data and ensure rights clearance?
- Face issues when integrating and installing tools necessary for text and data mining?
- Need access to data beyond historical texts?
- Deal with inconsistent formatting and gaps in coverage?
- Work in siloed computing environments?
- Need innovative tools to help them teach the next generation of data scientists?

That's where ProQuest TDM Studio comes in. Launching in April 2020, TDM Studio empowers researchers to create their own content sets for TDM with the most sought-after content for text analysis, including newspaper data. TDM Studio provides powerful computing resources, collaboration opportunities and default methodologies for teaching and learning in a single platform for TDM in academia.

*Analysis of 1000 Dramatic Works in Relation to Shakespeare and Fletcher*

### Intuitively Build Content Sets

Researchers can now create their own content sets through a self-service interface that provides access to ProQuest subscriptions and purchases, including:

- Current and historical access to major newspapers (including The Wall Street Journal, The New York Times, The Chicago Tribune and many more)
- Millions of dissertations and theses
- Enhanced metadata from ProQuest for TDM and analysis

### Develop New Insights with Flexible Technology

Upload your institution's proprietary methodologies or use one of several built-in techniques. Easily integrate TDM studio into your existing research and methods with languages like R or Python. Export and share your data analysis and visualizations with your colleagues or stakeholders.

### Collaborate on Projects

TDM Studio projects can be accessed by the entire research team – both within the institution and beyond – so all members stay updated in real time and have simultaneous access to results. Ultimately, this creates a platform to share content and methodologies for research teams.

### Teach Text and Data Mining

TDM Studio not only enables the most complex TDM methodologies, but also provides a solution that allows teaching of standard methodologies to engage students in the development of data visualizations.

Your researchers need the most powerful resources to make career-defining discoveries in their fields. In 2020, that starts with ProQuest TDM Studio.

Contact a ProQuest sales representative at [sales@proquest.com](mailto:sales@proquest.com) for more information.

# ProQuest One Academic

Four essential resources in one unified interface

**ProQuest One Academic is named Choice Outstanding Academic Title for 2019**

## What Choice says about ProQuest One Academic

*"Essentially, ProQuest is offering a wide variety of source types used for academic research in a single, cross-searchable platform and continues to deliver the award-winning usability librarians and library users have come to expect."*

*"...This product offers both substance and style. ProQuest is about as intuitive as it gets."*

**Charleston Advisor 18th Annual Readers' Choice Award: Best Interface**

"Very well done."

For access to the full review, you'll need a subscription to ccAdvisor, which you can request on their website at [ccadvisor.org](http://ccadvisor.org).

The Charleston  
ADVISOR

## User Interface Enhancements

NEW!

To better support students at the point of need, we've updated the help panels on the basic search page with tips and tools based on core information literacy principles of finding, evaluating and using information. In addition, the video player for Academic Video Online on the ProQuest platform has been updated to provide a more cinematic viewing experience.

4,000 videos a year to the collection at no extra cost to you? Latest highlights include 175 VR/360 videos and documentaries addressing immigration, climate change, human rights and more. Visit [alexanderstreet.com/avon](http://alexanderstreet.com/avon).

## ProQuest Central

NEW CONTENT!

ProQuest Central is growing! In just the last 12 months, we've added over 1,400 scholarly journals from publishers such as Springer Science & Business Media, Nature Publishing Group, and eight new SciTech Databases. Plus, more newspapers, magazines, and newswires from providers like Bloomberg and Dow Jones, and more market reports. Find out more details at [media2.proquest.com/documents/whatsnew-proquestcentral.pdf](http://media2.proquest.com/documents/whatsnew-proquestcentral.pdf).

## Academic Complete

NEW CONTENT!

Academic Complete now includes more than 180,000 authoritative titles for researchers worldwide. In 2019, we added more than 18,000 English-language titles and 9,000 non-English-language titles in languages such as Spanish, French, German, Italian, Czech and Chinese. We continue to add DRM-free content to our subscriptions; DRM-free content grew in Academic Complete by 20% in 2019.

## Academic Video Online

NEW CONTENT!

Binge away with Academic Video Online's unlimited access subscription model. We recommend starting with some of our newest content. Did you know we add approximately

## ProQuest Dissertations & Theses Global

NEW CONTENT!

The world's largest, most comprehensive database of graduate works continues to grow. In 2019, over 150,000 dissertations and theses from institutions around the world were added to ProQuest Dissertations & Theses Global. And in 2020, international coverage expands with additions from universities in Chile, Germany, Greece, Israel, Mexico and the United Kingdom.

# Books

## Ebook Central

NEW FEATURES!

We're taking patrons' mobile experience to the next level! Our online EPUB reader provides higher quality images, clearer text and fonts, and simplified navigation, so students can access ebooks easily on any device.

### New EPUB Reader Design: Accessible From the Start

## Ebook Subscriptions

NEW CONTENT!

### More Publishers. More Titles. More Choices.

ProQuest's ebook subscription supports and inspires researchers worldwide with content curated by on-staff librarians to meet the needs of academics. The strongest publisher partnerships in the industry deliver content from top publishers and university presses around the globe. Academic Complete is on the Ebook Central platform, offering the benefits of the best ebook platform available. Dovetailing with librarian and patron workflows, our tools help researchers find reliable information and create better research, better learning and better insights.

## New Publisher: Penguin Random House

COMING SOON!

Penguin Random House's robust title list brings books and ideas to academic classrooms. Thousands of titles support courses in disciplines including Business & Economics, Humanities & Social Sciences, Professional Studies, Science, Technology, and Engineering & Mathematics.

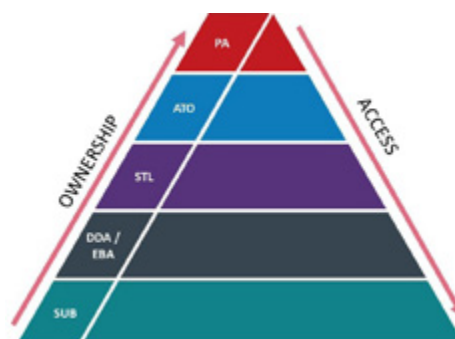

## DRM-Free, One Year Later

NEW!

1.3M Ebook Central books allow DRM-free chapter-level downloads. ProQuest has grown its pool of fully DRM-free titles to 200,000 across 340 publishers — and those numbers continue to increase. DRM-free content is available in the Academic Complete subscription and ProQuest One Academic.

## Innovative Buying Models

Build your collection through a variety of buying models — available in any combination — to meet collection-development and budget needs:

- Perpetual Access: Purchase key titles outright
- Access-to-Own (ATO) – Unique to Ebook Central, ATO is a middle ground between short-term loans and perpetual purchase, facilitating title ownership by applying budget dollars spent on ebook loans to perpetual purchases
- Demand-Driven Acquisition (DDA): Let usage be the guide
- Short-Term Loan (STL): Expand your collection with no commitment to purchase
- Subscription: Affordable base of critical content, unlimited multi-user access and continued growth

## Completely Refreshed

OASIS is a powerful collection development tool for academic librarians to find and acquire print and electronic books and more. In 2020, OASIS users will experience the most visible results of ProQuest's ongoing investment plus more content than ever.

New for 2020:

- French-language ebook aggregator Cairn.info launches as our latest publisher-direct platform with many more in development
- Expansion of our publisher direct program with enhanced workflows, additional publishers and new buying models
- Modernized user interface for Authorize Orders and search result pages
- Faster, more relevant search

OASIS works with all library management systems through a variety of EDI and APIs to create streamlined workflows.

As always, ProQuest experts can help support your collection development strategy, and shelf-ready library services provide complete selection to circulation support for print materials.

## Curated by ProQuest Topic Lists for Ebook Central and OASIS

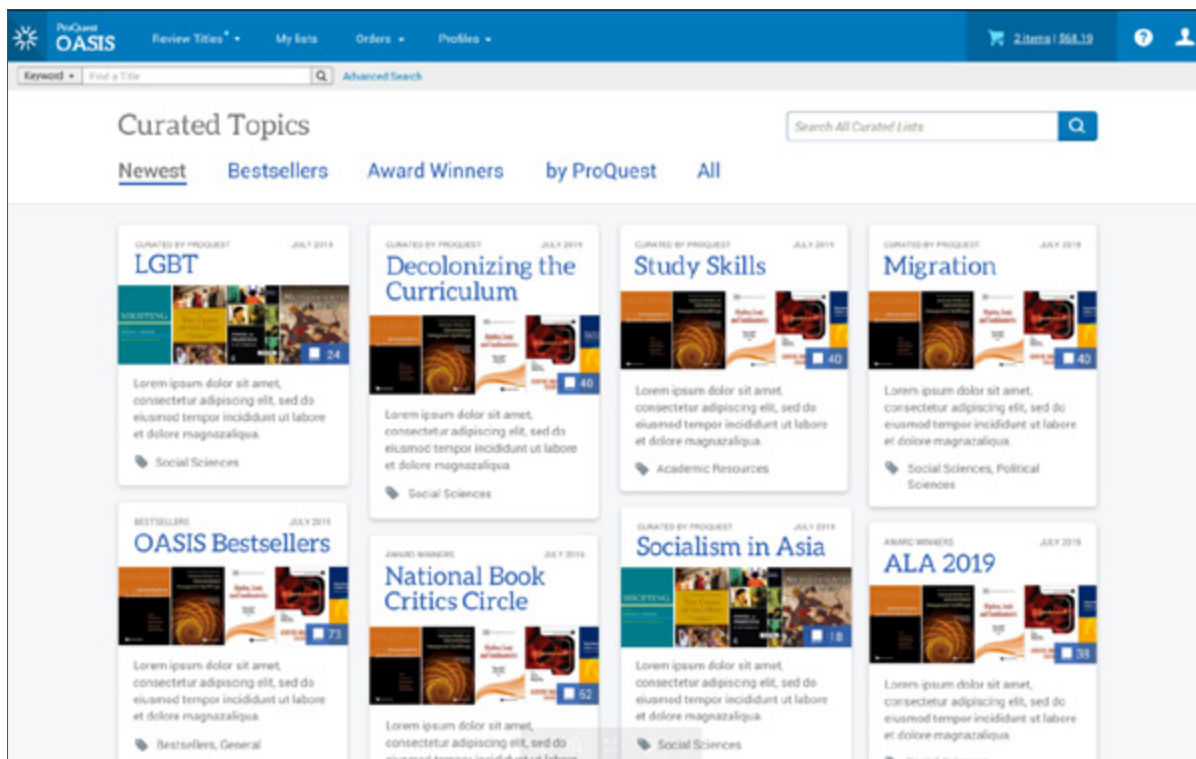

With millions of titles to choose from, finding books to fit your library's needs can be a challenge. ProQuest makes this task easier with Curated Topics for Ebook Central and OASIS users.

ProQuest librarians sift through the robust selections of titles in Ebook Central and OASIS to highlight award winners, top sellers, "hot" trending topics and more. Discover timely, high-interest titles covering topics from *Women in STEM* to *Research and Study Skills* to *Indigenous Studies*. Check back often as new topics are released monthly to support a wide range of disciplines.

Ebook Central Curated Topics feature up to 50 electronic books from a variety of publishers at reasonable price points with availability in multiple licensing and buying models.

OASIS Curated Topics are multiformat lists offering electronic, print and streaming video titles from a variety of publishers and platforms.

All titles in our lists are hand-selected and reviewed by an experienced librarian to ensure quality academic content. Find our Curated Topics on the home page of Ebook Central's LibCentral and in the Review Titles section of OASIS.

## O'Reilly for Higher Education NEW!

O'Reilly for higher education now supports SAML Federated Authentication, so users can sign in securely and easily using any SAML IDP (identity provider) that is part of your Identity Federation memberships.

O'Reilly is part of the InCommon network and therefore part of the larger eduGAIN international federation group. A full list of other federations that are part of eduGAIN is available at [edugain.org](http://edugain.org).

## Syndetics Unbound

Syndetics Unbound is the industry's best global catalog enrichment service, integrating seamlessly with your existing catalog or discovery layer to provide interactive exploration of your offerings and drive usage of your full collection.

### What's New for Subscribers:

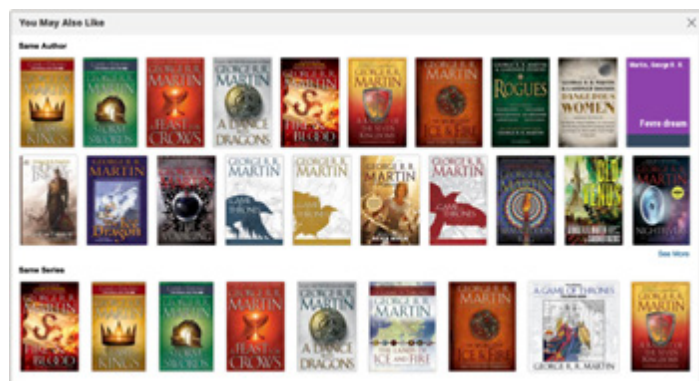

#### Academic Profiles

- Expanded book profile coverage will now include more academic titles
- Use relevant keywords, subjects, topics and terms from academic research titles and discover more related to your research, based on similar works

#### You May Also Like for Authors and Series

- Author and Series recommendations are now included in the You May Also Like element, in addition to the recommended titles that the element currently provides

Learn more at [Syndetics.com](http://Syndetics.com)!

## Bowker Book Analysis System

Bowker Book Analysis System (BBAS) is a powerful collection-analysis tool and an essential resource for academic librarians to electronically compare their library's collection against Resources for College Libraries (RCL). This customizable, self-service analysis tool eliminates tedious manual comparison via customized reports for data cleansing and management and instantly identifies collection gaps and overlaps, so you can make better informed selection decisions.

### Coming Soon for Subscribers:

Updates to the BBAS platform will include:

- More intuitive workflow
- Fresh, updated interface
- Dynamic user experience
- Easier to use

# The Arts

## Entertainment Industry Magazine Archive 3

NEW!

This vast digital archive of 36 key titles offers unparalleled insights into the behind-the-scenes activities of the music, film and other entertainment industries. By providing the complete runs of major trade and consumer magazines, from their inception to 2015, it arms students and researchers with primary source material to develop a contextual understanding of the entertainment and media industry as it evolved into the 21st century and shaped and reflected culture, attitudes, ideas and aspirations.

National Theatre's production of Twelfth Night (Marc Brenner)

## Art & Architecture Archive 2

NEW!

The Art and Architecture Archive offers Architectural Review, British Journal of Photography, Graphis, Print and other titles previously unavailable digitally. With the same benefits of the original collection, the Art and Architecture Archive 2 will ultimately feature 21 additional publications, including Goya, Popular Photography, Building Design, ID, Preservation and several other international titles, adding 850,000 pages of searchable, full-page color images.

## The GQ Archive

COMING SOON!

In 2020, ProQuest launches The GQ Archive, offering unprecedented access to the publication's full run with new issues added on an ongoing basis. Debuting in 1931 as a fashion industry trade magazine, GQ expanded to cover lifestyle, politics and other general interest topics. The archive's wealth of photographs and editorial content provide a lens on decades of cultural history.

## Music and Dance Online

NEW CONTENT!

Music and Dance Online offers the largest, most diverse music resource encompassing a wide range of formats including scores, reference, audio and video. Over 600

albums, 12,000 audio tracks and 15,000 pages of scores have recently been added, with recent streaming audio updates focusing on classical music from labels including Hänssler Classic, Profil, and Royal Philharmonic Orchestra.

## Theatre and Drama Premium

NEW CONTENT!

Theatre and Drama Premium is a multi-format resource that supports all areas of theatre study, from the stage to behind-the-scenes, providing the drama texts, performances and archival materials faculty and students need to discover, teach and interpret all aspects of performance. Performance Design Archive has been updated with staging and design archives, including the set designs of Anita J. Tripathi.

## National Theatre Collection

NEW!

National Theatre Collection brings the stage to life through high-definition streaming video of world-class productions and unique archival material, offering significant insight into theatre and performance studies. Including 19 performances and 4,200 pages of archival content (and growing), the digital performance resources in this collaboration with the U.K.'s National Theatre have never been seen outside of the National Theatre's archive.

# News

## ProQuest Historical Newspapers

With more than 50 premier stand-alone historical titles dating back to the 1700s and more than 55 million digitized pages, ProQuest Historical Newspapers is the definitive newspaper archive empowering researchers to travel back centuries and become eyewitnesses to history. Every issue of each title includes full-page and article images in easily downloadable PDFs. Researchers can study the progression of views, events, people and places over time through these historical newspaper pages, including articles, photos, advertisements, classified ads, obituaries, editorial cartoons and more.

We're pleased to announce extended coverage of the Chicago Tribune in ProQuest Historical Newspapers. Researchers now have access to coverage of issues and events from 1997-2010 – including the election of President Barack Obama, the immigration reform movement, Chicago sports and the city's record of gun violence over time.

### ProQuest Historical Newspapers: Stand-Alone Titles

- Asheville Citizen Times (Asheville, NC) 2012-Present
- South Florida Sun-Sentinel (Fort Lauderdale, FL) 2010-Present
- Palm Beach Post (Palm Beach, FL) 2010-Present

# History

## History Vault: African American Police League Records, 1961-1988

NEW!

Police shootings across the United States and the rise of the Black Lives Matter movement have made the issue of police brutality front-page news in recent years. But a look back through American history shows the issue has a long and troubled past. This module documents how African American policemen in Chicago, beginning in 1968, attempted to fight discrimination and police brutality by the Chicago Police Department and improve relations between African Americans and the police department. Booklist called it, "an invaluable primary-source destination."

## History Vault: Progressive Era: Voices of Reform, 1875-1945

NEW!

Joining History Vault's growing Progressive Era records, this module includes correspondence, writings, speeches, diaries and photographs of Progressive movement leaders John R. Commons, Charles R. Van Hise, Richard T. Ely, Edward A. Ross and Charles McCarthy. These reformers proved they were more than idealists by working to solve the problems of post-Civil War industrialization.

## History Vault: Revolutionary War and Early America: Collections from the Massachusetts Historical Society, 1721-1860

NEW!

Discover 26 collections from the holdings of the Massachusetts Historical Society, North America's first society and the first library devoted to collecting Americana. Providing new insight into America's founding, these collections focus on the Colonial Era, the Revolutionary War and the Early National Period, with some extending into the Civil War era.

## History Vault: Socialist Party of America Papers, 1897-1976

NEW!

The Socialist Party of America Papers provide valuable resources on the labor movement, civil rights, anti-war activities and the history of the American Left. The collection also records the party's work with the League for Industrial Democracy, the Southern Tenant Farmers'

Union, Americans for Democratic Action, the American Civil Liberties Union and other organizations.

## History Vault

COMING SOON!

Six new modules covering the most widely-studied topics in U.S. History!

- Temperance and Prohibition Collection – Women's Suffrage
- Southern Women and their Families in the 19th and 20th Centuries
- American Federation of Labor: Samuel Gompers Era Records, 1877-1937
- CIA Cold War Research Reports and Records on Communism in China and Eastern Europe
- Records of the Joint Chiefs of Staff, 1946-1953
- Confidential U.S. State Department Special Files: Asia, 1945-1966

## Women's History

COMING SOON!

Women in Development: The Social Movement (1919-2019)

This latest addition to the Women and Social Movements Library will look at women's global economic participation

and activism over an entire century. This database sets out to reveal and assess a realm of individual efforts, organizational initiatives and socio-cultural projects led by women in the global north and south.

## Early European Books: Collection 16 (French Culture & Etiquette)

NEW!

### Early European Books Collection 16

Developed with scholars, rare book librarians, bibliographers and other experts, Early European Books offers unlimited access to millions of fully searchable pages scanned directly from thousands of pre-1701 books and rare incunabula in high resolution and full color. Each item is captured in its entirety, complete with binding, edges, endpapers, blank pages and any loose inserts.

### French Culture in the Early Modern Period

Featuring over 1,300 publications from the *Bibliothèque nationale de France* in Paris including 80 incunabula editions and a total number of over 515,000 pages of content, Collection 16 extends across subject areas, highlighting many facets of the French cultural scene.

## Early European Books: Collection 17, 18

COMING SOON!

In 2020, ProQuest will launch two new collections in Early European Books. Stay tuned for details!

## Insight Product Suite

ProQuest Insight products are select collections of U.S. government documents with workflow functionality to facilitate research, teaching and learning involving historic and current legislative, judicial and executive branch materials. Primary source content in each collection is compiled by our professional research staff and made accessible through a user-friendly, dynamic workspace allowing easy, in-depth discovery. Links between collections facilitate understanding of government processes and multiple viewpoints. The Insight products empower users to focus on what really matters – achieving superior research results.

## Supreme Court Insight, 1933-1974

NEW!

This new collection of Supreme Court Insight includes dockets, petitioner briefs, respondent briefs, amicus briefs, joint appendices, oral arguments and opinions for cases from 1933-1974. The collection will also include many landmark cases. Sources for the module include partner depository libraries, the Law Library of Congress, the Supreme Court Library and ProQuest microfiche.

## Regulatory Insight: Guidance and Policy

NEW!

Regulatory Insight Guidance and Policy offers a unique collection of Federal agency guidance and policy documents harvested from government websites. The documents explain, summarize and clarify regulations and may suggest steps both organizations and consumers can take to comply with requirements.

Historically, guidance and policy documents have often been difficult to find on agency websites and have never before been collected systematically in a single place. Our archive will ensure continued access to documents as agencies replace them over time with new guidance documents.

## Digital National Security Archive: U.S. Policy Towards Iran: From the Revolution to the Nuclear Accord, 1979-2015

NEW!

Since the 1979 overthrow of the U.S.-backed Shah and the subsequent hostage crisis, Iranian relations have been widely considered a major foreign policy challenge for the United States, with every ensuing American president seeking to establish ties with the Islamic Republic at some point. This collection traces the arc of this unusual relationship from its more tenuous points to the signing of the controversial nuclear accord in 2015.

## Digital National Security Archive – 2 New Collections Coming in 2020!

COMING SOON!

- President's Daily Briefing, Part 2: Nixon and Ford
- Iraq War, Part 2

# Social Sciences

## Social Science Premium Collection

NEW CONTENT!

In the last 12 months, the Social Science Premium Collection has added:

### The Full Text of 150 New Scholarly Journals, Including:

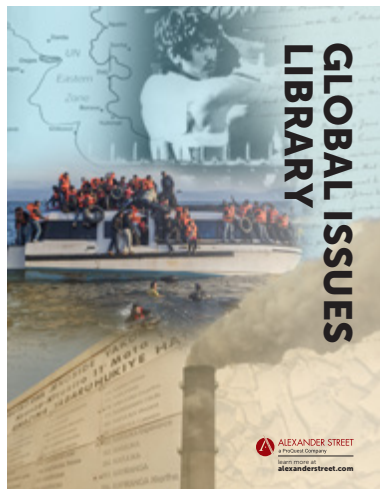

- Politics & Religion, Global Sustainability, and Journal of Pension Economics & Finance (Cambridge University Press)
- Journal of Developmental and Physical Disabilities, Asia-Pacific Science Education, and Comparative Migration Studies (Springer Nature)

- Church, Communication and Culture, and RMLE Online (Taylor & Francis Ltd.)
- Asia & the Pacific Policy Studies (John Wiley & Sons)
- International Journal for Crime, Justice and Social Democracy (Queensland University of Technology)
- Journal of English as a Lingua Franca (Walter de Gruyter)

You will also find the full text of almost 80 blogs from Newtext covering key areas of the Social Sciences including political science, education and information science.

## Mass Incarceration and Prison Studies Online

NEW CONTENT!

Mass Incarceration and Prison Studies Online is a database curated by an international board of advisors and part of the Global Issues Library. Organized around a selection of key historical and contemporary events and mixing a case and thematic approach, this resource will look at the history of incarceration in the United States, Russia, the United Kingdom,

Australia, Canada and others. The main themes and events related to mass incarceration and the history of prisons are easily explored by providing multiple perspectives and points of entries: court cases; prison experience: first-hand accounts; law and government documents; rehabilitation; training materials; policing and law; prison and identity and theory.

## Trends and Policy: Immigration and Border Security, 1790-2019

Immigration and Border Security is the inaugural module for ProQuest's new Trends and Policy product line. This collection connects policies implemented by the U.S. government with the data-driven results and trends of those policies and provides context with analytical reports and news articles. Presented in a unique interface designed specifically to help researchers make key connections and discoveries, this product includes timelines, topic pages and data visualization tools.

### Explore and research...

- The socio-economic landscape in the western world in the mid-to-late 20th century
- Post-WWII popular culture in America, Europe and Australia
- The influence of media on youth and popular culture
- Historical gender issues through viewing of gendered advertising
- The impact the Vietnam War and Cold War had on youth world views
- The evolution of popular fads and fashions of the 20th century

# Business Resources

## New Business Content

NEW CONTENT!

The ABI/INFORM Collection's full-text content continues to grow in the formats most demanded by users of all levels. Examples of content added in the last 12 months include:

- 80 extra scholarly journals from publishers such as Taylor & Francis, John Wiley & Sons, and Springer Nature
- WSJ Pro trade journals and new Barron's online content, both from Dow Jones
- All articles in The Economist now available in PDF including full-color cartoons, photos, charts and tables

- Constantly updated collection of dissertations — ABI now contains almost 50,000
- Easy-to-understand, visual snapshots of the economies for 100 countries from Charting Economy
- Plunkett Corporate Benchmarking Reports: detailed company and industry reports for over 3,000 companies
- More working papers from Research Papers in Economics (RePEc), ADB Economics Working Paper Series and OECD Working Papers on Public Governance — now over 500,000 in ABI

# Health & Medical

## Behavioral & Mental Health Online

NEW CONTENT!

This continually growing collection added videos on counseling theory, health and wellness, and depression from publisher partners like Microtraining Associates, Milton H. Erickson Foundation, John Wiley & Sons, and more.

## Nursing Education in Video, Second Edition

NEW CONTENT!

Our latest updates include: psychotropic medications, age-specific care, national patient safety goals for long-term care and more to keep your content compliant with federal regulations and reflect best-practice standards in nursing.

## Health Research Premium Collection

NEW CONTENT!

Over 120 peer-reviewed medical and nursing titles were added to the Health Research Premium Collection over the past 12 months, including these highly cited publications:

- American Journal of Clinical Pathology (Oxford University Press)
- Clinical Interventions in Aging (Taylor & Francis)
- Advances in Health Sciences Education (Springer Nature)
- Immunotherapy (Future Medicine LTD)

# Science and Technology

## BBC Landmark Video Collection, Second Edition

NEW!

From the depths of the oceans to the Antarctic ice cap, from a firsthand view of evolution in animals and plants to Cretaceous Alaska and far-flung corners of the globe, the BBC Landmark Video Collection, second edition is your groundbreaking exclusive HD view into our natural world. Through access to cutting-edge series like Planet Earth and Blue Planet, and the newly added Big Cats and Dynasties series, your classrooms and students can now experience breathtaking natural events like never before.

The second edition is for courses in science, natural history, geology, geography, earth science, climate science, environmental science, biology, anthropology and more.

With the addition of 37 new titles in the second edition, the complete collection is launching with a total of 105 videos.

### New Series for the Second Edition

- Big Cats
- Civilisations
- Dynasties
- Mission Galápagos
- Earth's Natural Wonders (Series 2)
- Secrets of the Human Body
- Icons
- Rituals

# Ex Libris

## Alma

Alma is a cloud-based unified library services platform that manages print, electronic and digital materials in a single interface.

### Highlights

- Simplified workflows, enhanced UI and better online guidance and documentation
- Integration with the ProQuest platform, Ebook Central and Rialto
- Unified digital management system supporting the loading and delivery of all types of files. OAI-PMH harvesting options to migrate legacy digital systems to Alma
- DARA (Data Analysis Recommendation Assistant) is continuously expanding its AI-driven recommendations. With machine learning technology, Alma is the first library services platform to deliver smart recommendations
- Aligning with the new standard of COUNTER 5 usage and providing new cost-per-use metrics, providing libraries with enhanced metrics needed for self-evaluation
- User interface with improved operational efficiency and simplicity, now in the process of a major shift to angular technologies
- Linked data with Alma can enrich bibliographic records with well-known URLs

## Leganto

Leganto makes it easy to create, access and manage course resource lists and save costs for students and schools.

### Highlights

- Highlight alternative resources such as OER or other open access materials
- Tighter integration with learning management systems
- Automated video recommendations and explicit library recommendations for additional materials

- Integration with campusM mobile app, RefWorks, the UK CLA Digital Content Store (DCS) and – soon – ProQuest Rialto

**Central Discovery Index (CDI)** is a new, unified content index expanding the capabilities of the Summon and Primo discovery services. It offers discovery customers enhanced data quality, faster updates and new services driven by data intelligence. CDI also supplies data to other services on the Ex Libris higher education platform.

## Primo

Primo maximizes the exposure of your library collections and provides students and researchers with fast access to scholarly materials and intuitive ways to explore new content.

### Highlights

- New feature, Browse Journals by Categories, enhances exposure and exploration
- Subject headings can be selected and displayed as a chain of linkable subjects
- Voice search assistant allows speech recognition across all Primo supported languages
- New opportunities for users to bulk save, print and export brief search results

## Summon

Summon enables your patrons to uncover a wealth of academic content with a resource discovery solution that meets both patrons' and librarians' needs.

### Highlights

- Contextual relationships enable linking to related book chapters and reviews
- Leganto integration bridges discovery with course resource list management
- Video improvements enhance identification of and linking to video content
- Unpaywall integration improves linking to PDFs and full-text content

## RefWorks

RefWorks is an easy-to-use reference management service that simplifies research workflow, making it easy to collect, organize and share references and collaborate with others, so users can focus on quickly writing better, more accurate papers.

### Highlights

- Integration with today's top writing tools
- Tools for systematic review
- Thousands of citation styles
- Administrative controls and analytics
- Superb customer support, including chat
- Projects and project sharing for distinct lines of inquiry and systematic review

## Esploro

Esploro increases the impact of academic research by maximizing visibility, efficiency and compliance of research activities. It captures, manages and disseminates research output and data, leverages library expertise and technology, and seamlessly integrates with existing research workflows.

### Highlights

- All research assets connected in one place
- Automated capture from external sources
- Metadata enrichment for maximum discoverability
- Automatically populated researcher profiles
- Research metrics and benchmarks

## Pivot

Pivot connects researchers to financial support by leveraging the most comprehensive global source of sponsored funding opportunities, coupled with scholarly profiles to match researcher with financial partners and collaborators.

### Highlights

- Designate a profile proxy feature
- Streamlined workflows for single sign-on authentication (SSO) and claiming profiles
- Link to full text of articles
- Create public groups
- New admin features:
  - New tools for managing user accounts
  - Create and share embedded searches

## Research Professional

Giving institutions and researchers the information and guidance they require to stay ahead and secure more grants, Research Professional is an online service for global research funding, news and insights. It streamlines the process using an extensive funding opportunities database covering all scholarly disciplines from a variety of different sources. It also delivers news and analysis on research policies, as well as data on awarded grants.

## Rosetta

Rosetta is an end-to-end digital asset management and preservation solution, enabling the safe and secure collection, management and delivery of all types of digital information.

### Highlights

- Upgrade of Solr to SolrCloud – providing high scalability, fault tolerance and distributed indexing
- Advanced viewer configuration – control download options, share link and visibility of page elements
- Video.js added as a new out-of-box audio/video viewer

## campusM

campusM delivers a mobile app and portal that helps you deliver on your strategic goals and gives your students a one-stop shop for everything they need.

### Highlights

- Creative Studio for effective communications from student and academic affairs
- App-based class attendance capture
- Off-the-shelf integrations to leverage existing IT investments
- Notification center for proactive cross-channel student communications

## RapidILL

RapidILL is an ILL fulfillment system for the digital delivery of articles and book chapters.

### Highlights

- Seamlessly integrates with library workflows, transparently augmenting resource sharing management systems (like Rapido)
- Uniquely built around a community of reciprocal users who share resources on agreed-upon terms including fulfilling lending requests with high-quality scanned material within 24 hours
- Smart request routing, with load-leveling and time zone awareness

## Rapido

Rapido is a highly automated solution for unmediated interlibrary borrowing and lending, including full broker capabilities.

### Highlights

- Intuitive, predictable and accurate Amazon-like view for end-users
- Broad delivery options for end-users covering physical resources, hold requests and digital assets
- Boosts staff efficiency with customizable and flexible policies and terms of use
- Open solution with third-party integration API

## The Ex Libris App Center

This one-stop shop for community apps and extensions enables the community to easily find and share apps that complement and extend Ex Libris solutions.

The initial App Center launch features Ex Libris and community-developed apps, extensions and customizations for Alma, Primo, Rosetta and campusM, with more Ex Libris solutions to be added in the near future.

The App Center supports our prolific creative developer community leveraging Ex Libris open APIs and platform services.

Access it here:
